

GREEN POWER EVOLUTION

The introduction of the Green Power Evolution grows the range of Berthoud electric weeders, with additional functionality and the same comfort of use.

As well as weeding paths, patios and borders without using chemicals, the Green Power Evolution simply and quickly lights charcoal barbecues in less than 2 minutes.

PRACTICAL AND EASY TO USE

- Always ready to use, no consumables to buy or charging required
- Simply attach to an extension cable and heat up

PERFORMANCE

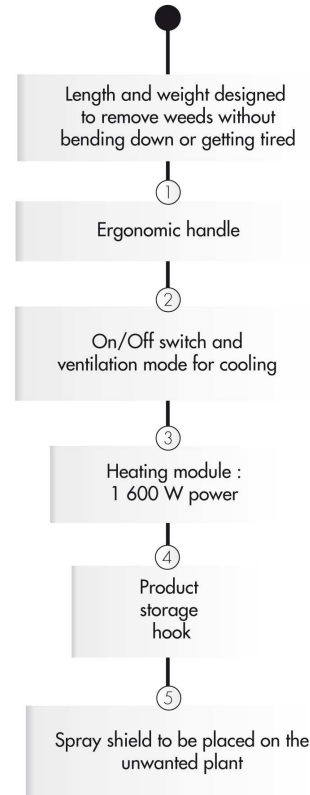

- Thermal shock of 600°C bursts the cells of the plant destroying the weed (after 3 seconds) without the need for chemicals
- Fast lighting of the charcoal barbecue (less than 2 minutes) for the GREEN POWER EVOLUTION version

SECURITY

- No flames, no gas
- After switching off the device, a cooling down phase prevents accidental burns
